BRAND GUIDELINES

LOGO IDENTITY

MAIN LOGO

It is very important that the logo is always easy to view and read in all usage situations. According to needs and print methods, the logo can be displayed in different color variations. This is the suggested variant of the logo. It may be shown on (Solid Black) background. It may also be used over photos where a suitable clear area exists.

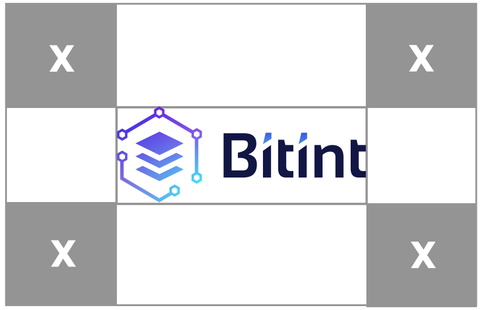
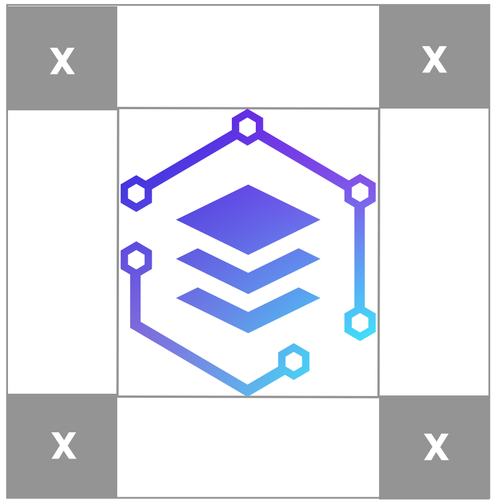
LOGO SPACING

In order for the Bitint logo to be clearly legible in the context of surrounding graphics and information, the spacing rules must be followed. No graphic element which is not part of the logo may be placed in the area “x” surrounding it. This area, also called the “area of isolation”





Area of isolation **X**

ICONIC VERSION

Iconic version of logo involves distilling your brand identity into a simple, memorable symbol that can be used across various mediums and sizes. Bitint logo can be used in Iconic Version as follows. There are 3 versions.

BLACK AND WHITE LOGO

Black-and-white version of a logo is an important aspect of a brand identity system. It ensures that your logo remains recognizable and effective in situations where color isn't available or appropriate.
